## Welcome

Welcome to the second newsletters for Insight EDS. It has been a while coming but Russell & Rebekah now have a second beautiful daughter named Rhea Sian and it has taken her mum a few months to find her head again! Russell has taken up cycling to alleviate his stress at work and home and recently completed the Rotorua to Taupo 100km fly-over. The first of many events!

## Camera Catches Thief

Insight EDS installed and maintained Access Control and CCTV systems work! Recently one of our buildings was broken into by a man who had stolen an access card. The cameras caught him gaining access into the lifts, exiting onto certain floors and helping himself to lap-tops. Once the client realized their security had been breached it was a simple matter to review the camera footage for that previous weekend. Clear images of the perpetrator had been caught on camera.....

If you would like to discuss your existing access control systems or cameras or would like to look at installing a new security system please contact Insight EDS today.

## Security News

### Swine Flu—Thermal cameras installed at airports.

Thermal cameras have been installed at airports across the world. These cameras are designed for mass screening of public areas; as people walk past a thermal image is displayed. If an individual's temperature is over 38 degrees an alarm is triggered. Menopausal hot flushes and pregnancy have triggered alarms. Traveler beware!

## What's Hot—Home Automation

Sick of five remotes that clutter the coffee table? Now you can have one remote to replace them all. Insight EDS now supplies and installs Control4 Home Automation equipment. Control4 uses a wireless network so you don't need to worry about re-wiring your home. Control4 is more than having a universal remote; it allows you to control your music, movies, lights and even your security system from anywhere in your home. For more information check out What's Hot on our website

## Staff Update

Todd took out the prize for an in-house Insight EDS competition measuring performance. A 42 inch Samsung LCD television. Go Todd!

## Quote for the Quarter

Work consists of whatever a body is obliged to do, and play consists of whatever a body is not obliged to do.

- Mark Twain

## Security Tip

Beware the opportunist thief. A simple buzzer or chime can alert you to their presence in unattended reception and retail areas.
